PROFESSIONAL SUMMARY:

Dynamic Flutter Developer with a proven track record in designing and developing cross-platform mobile applications that emphasize user experience and functionality. Expertise in Flutter and Dart, specializing in high-performance solutions through effective API integration and state management (Cubit, Riverpod, GetX). Experienced in collaborating with cross-functional teams to define project scope and deliverables, utilizing agile methodologies to ensure successful project outcomes. Committed to continuous professional development and staying updated with emerging industry trends, while recognized for strong communication skills and the ability to mentor peers. Eager to leverage technical expertise and a results-oriented approach in a progressive organization dedicated to mobile application innovation. Experienced in developing and implementing programming projects in the Finance sector and application security, with a background working for Saudi companies. I also work outside the mobile application space as a WordPress developer.

EDUCATION:

- **Health Science Technology Specialist** | Azhar - University | Jun 21
- **Graduation Project** : A+

PROFESSIONAL EXPERIENCE:

WMW Etsaplus | Hourly

Flutter Developer | May 2025 – Present

- Integrating two platforms through Firebase, each operating independently, but switching between them via a button.
- Editing maps between users, restaurants, and delivery.
- Improving the delivery app to work properly.
- Contributing to the continuous development and improvement of the app by adding new features and functionality, and improving the overall user experience.
- Contributing to resolving technical issues and improving the overall performance and speed of the app.

EVI Tech | Part Time

Flutter Developer | Feb 2025 – Present

- Collaborate with teams to design visually appealing, user-centric interfaces, then address the backend to enhance brand identity and enhance customer engagement.
- Translate client requirements into practical features and deliver tailored solutions that prioritize performance and ease of use while adhering to project timelines.

Al-Azhar University in Alexandria | Full Time

Technical Support in the IT Unit | Sep 2024 – Present

- Contribute to solving technical problems and improving the overall performance and speed of the application.
- View the problems in the university system and report them to solve the problem.
- Assist in the continuous development and enhancement of the application by adding new features and functions, and improving the overall user experience.
- Ensure the security of student data and grades, and secure the platform against potential security threats.

Wexel | Full Time

Flutter Developer | Mar 2024 – Sep 2024

- Architect and maintain cross-platform mobile applications using Flutter, ensuring robust functionality and a seamless user experience across diverse devices and operating systems.
- Engage in collaborative efforts with design and product teams to craft visually appealing and user-centric interfaces, elevating brand identity and enhancing customer engagement.
- Translate client requirements into actionable features, delivering tailored solutions that prioritize performance and usability while adhering to project timelines.
- Facilitate code reviews and mentorship within the development team, promoting best practices and fostering an environment of continuous learning and excellence.

Orange Digital Center Egypt | Training

Flutter Developer (Training) | Jun 2022 – Dec 2022

- Training on dealing with the team and under pressure
- Training on design and improving the application
- Training on using and calling the API.
- Participating in collaborative efforts with design and product teams to formulate visually appealing and user-centric interfaces. Learning to deal with the Egil scream master environment.
- Clean architecture training

Codinga Company | Full Time

Flutter Developer | Aug 2022 - Nov 2022

- Dealing as a team and developing more than one application at the same time.
- Dealing with pressure and stress well and showing the best result in the end.
- Working was enthusiastic because they saw that we were working well with pressure and the large amount of work.
- Working on applications of the types of live broadcasting

PROJECTS :

WMW Etsaplus All | April 2025 – Present (In Review)

- **Description:** An app based in Germany is divided into two parts: one for restaurants and the other for services. Both are linked to Firebase. I updated the **design** with the user's own customization, modified the **map**, and added some of my own code to create some controls. I used Estate Management **Getx**.
- **Platforms:** Android, iOS
- **Company:** WMW Etsaplus
- **Google Play:** [WMW Etsaplus- Apps on Google Play](#) (In Tester Review)
- **App Store:** [WMW Etsaplus- Apps on apple](#) (In Review)

WMW Etsaplus Driver app | Feb 2025 – Present (In Review)

- **Description:** I modified the existing controls and added specific times for acceptance and rejection. Most importantly, I modified the **maps** to link the customer, the restaurant, and the delivery, so that each of them has a specific line indicating the distances.
- **Platforms:** Android, iOS
- **Company:** WMW Etsaplus
- **Google Play:** [WMW Etsaplus Driver app - Apps on Google Play](#) (In Tester Review)
- **App Store:** [WMW Etsaplus Driver App- Apps on apple](#) (In Review)

معاملتي | Dec 2024 – Present

- **Description:** An app for booking tickets for patients, following up with their doctor, and displaying photos and videos, There's also an admin section for changing statuses and adding photos, notes, and videos add **FCM** notification and I used Estate Management **Cuibt** and Rest API was Odoo System and other services
- **Platforms:** Android
- **Company:** EVI
- **Google Play:** [معاملتي - Apps on Google Play](#)

Talabatcom | Sep 2024 – Present

- **Description:** The application includes more than one section, whether for restaurants, supermarkets, pharmacies, etc., and each of them does something different. We also added a messenger section to it. I used Estate Management **Getx** and add **FCM** notifications, change Style **Map** and the Rest API was Laravel and other services
- **Company:** *Talabatcom FreeLancer*
- **Platform:** Android , Ios.
- **Google Play:** [Talabatcom - Apps on Google Play](#)
- **App Store:** [Talabatcom - Apps on Appl](#) (In Review)

Fool Nour Restaurant Dashboard | Mar 2024 – Present

- **Description:** Dashboard admin, delivery admin and orders admin only , Sorry for not adding the real link, but this is a restaurant privacy policy, I add **FCM** notification and I used Estate Management **Cuibt** , Rest API was Firebase and other services
- **Company:** **Fool Nour FreeLancer**
- **Platform:** Web Flutter SDK.
- **Screenshot :** [Fool Nour - on google Driv \(You can watch the interviewlive\)](#)

Fool Nour Restaurant App | Feb 2024 – Present

- **Description:** An application to buy popular meals and soft drinks and add a n application wallet.
- **Platforms:** Android,
- **Company:** **Fool Nour FreeLancer**
- **Platform:** Android , Ios.
- **Google Play:** [مطعم نور - Apps on Google Play](#)
- **App Store:** [مطعم فول نور - Apps on Appl](#)

Medik App | Nov 2023 – Dec 2023

- **Description:** To display medical devices and for users to purchase these devices on display, whether a doctor or a user. The devices are also displayed through companies or doctors present, I add **FCM** notification and I used Estate Management **Cuibt** , Rest API was Firebase , Add PayMob payment gateway, other services
- **Platform:** Android .
- **Google Play:** [Medik App - Apps on Google Play](#)

فقه آل محمد - عليه السلام | Jun 2023 - Aug 2023

- **Description:** An application for Quran and Hadith references, and a chat to talk with some sheikhs if necessary.
- **Platform:** Android .
- **Google Play:** [فقه آل محمد - عليه السلام - Apps on Google Play](#)

LMS Web ODC (training ODC) | Feb – 2023 – Mar 2023

- **Description:** A comprehensive educational site that included exams for students, and they could also watch courses and more., I add **FCM** notification and I used Estate Management **Cuibt** , Rest API was Firebase , other services
- **Platform:** Web Flutter SDK.
- **Video:** [LMS ODC - web on Google Drive,](#)

LMS App ODC | Dec 2022 -Jan 2023
